

National 5 SfW Health Sector (Course Code: C261 75)

SCQF Level 5 (24 Credit Points)

Why study SfW Health Sector?

The Health Sector is one of the largest employers in the country and provides employment opportunities through a varied range of disciplines. Primary and secondary care in the NHS are the most common routes to employment, but this course will cover other areas such as complementary therapies, the retail pharmaceutical industry and the community and voluntary sectors.

The sector offers good opportunities for those who enjoy:

- working in a team
- solving problems
- learning about fitness and health.

What will I study?

The course is made up of five compulsory units, three taking 40 hours and two taking 20 hours of study:

- Working in Health Sector Settings **OR** Working in Health Sector Settings Scotland (6 SCQF credit points)
- Employability Skills in the Health Sector (6 SCQF credit points)
- Medical Devices and Pharmaceuticals (6 SCQF credit points)
- Improving health and Wellbeing (6 SCQF credit points)
- Physiology of the Cardiovascular System (3 SCQF credit points)

You will learn about

- the diverse range of both clinical and non-clinical roles
- practice customer care skills in a clinical and non-clinical role
- job seeking skills and how to prepare for specific roles including mock interviews
- learn about different medical devices and how they diagnose and treat patients
- investigate the use of pharmaceutical products for medical conditions
- tackle current health and lifestyle issues through teamwork
- the structure and function of the cardiovascular system.

How will I be assessed?

Assessment will be based on a range of practical activities in real or simulated workplace settings. Teachers will observe and keep records of your work.
