S3

Maths, English, Drama, Biology, Hospitality French, Modern Studies, Admin & IT.

Senior Phase

Maths, English, Drama, Creative Industries, Philosophy, NPA Film & Media, Photography, RMPS, Business Management

My Future

For my future I would like to work in the Creative sector and have a fun career by doing different jobs in the theatre industry including acting, directing and stage management, as many roles as possible. I may perhaps then work with Drama in education.

During my time at Graeme High I have developed my confidence. I was not going to pick Drama in S3 as I felt shy, but was encouraged to by my teacher and Mum. I found S3 Drama more interesting as it taught me about many different aspects of the theatre. I was able to develop the skills of creativity, team work and problem solving. I also enjoyed the written work.

Choosing my destination

In school I had the support of my drama teacher, and my DHH who were able to support me to keep developing my drama skills in S6. I had the opportunity to be in junior drama classes and help the pupils. My careers advisor was able to show me lots of interesting courses I can apply for.

My advice

In order to help me stand out as a candidate for acting, I have accessed drama courses outside of school also. I am doing a course in audition prep with the Royal Scottish Conservatoire and have worked with Scottish Youth theatre online. If you love the creative side of drama, try and get involved in different theatre groups as it will give you lots to talk about in an interview or when applying for college or university.
