

Modern Languages

Broad General Education S1-S3

French

The French course aims to build on language skills developed in primary and allows you to develop a deep understanding of the language, grammar and culture of French speaking countries. Throughout the course, you will develop your knowledge and understanding of the language in practical and relevant contexts of society, learning, employability and culture and focus on developing further the skills of listening, talking, reading and writing. Studying a modern language allows you to develop a deeper understanding of your mother tongue. It has a unique contribution to make to the development of cultural awareness, enhancing your understanding and enjoyment of other cultures and of your own. You gain insights into other ways of thinking and other views of the world, and therefore develop a much richer understanding of global citizenship.

In S2 Spanish will also be studied alongside French.
